Computer Science student at Institut Teknologi Bandung with a strong focus on Software Engineering and AI/ML. Experienced in building production-level web and mobile applications using Go, Vue, Laravel, and Flutter. Beyond full-stack development, I specialize in designing AI models and automated pipelines specifically for recommendation systems. Actively involved in AI/ML education and research, I have a proven ability to deliver scalable software, lead backend development, and drive the integration of intelligent, data-driven features into real-world products.

EDUCATION

Institut Teknologi Bandung – Bandung, ID

Aug 2022 – Jul 2026

Bachelor of Engineering, Computer Science

- **Thesis:** Development of Process-Supervised Multi-Agent Retrieval-Augmented Generation for Constraint Satisfaction in Tourism Itinerary Recommendation Systems: A Case Study in the Bandung Region.
- GPA: 3.37 of 4.00.

SMAN 1 Bandung – Bandung, ID

Jul 2019 – Apr 2022

High School Diploma, Natural Science

GPA 95.37 of 100.00

PROFESSIONAL EXPERIENCE

SpedGrow Pte Ltd – Singapore, SG

Jun 2025 – Present

Software Engineer

- Developed and maintained cross-platform mobile and web applications using Go (Gin), Flutter, and Vue, managing the full lifecycle from development to production.
- Optimized development workflow and code quality by implementing AI-powered automated testing using Testspite, reducing manual QA effort.
- Engineered an AI-driven challenge recommendation system using Python and LLMs, and established MLOps pipelines to automate model training, deployment, and monitoring.

PT. Oviotech Prima Integra – Bandung, ID

Jun 2025 – Oct 2025

Data Engineer

- Designed and developed Python-based ETL pipelines to process data from Apache Hive datamarts using SQLAlchemy for data manipulation.
- Delivered standardized datasets through internal APIs built with FastAPI, ensuring efficient data accessibility for downstream systems.
- Registered pipelines in the data catalog to maintain data consistency, traceability, and governance across projects.

Magna Partners – Jakarta, ID

Nov 2024 – Aug 2025

Software Engineer

- Developed REST APIs using Go (Gin) and migrated the architecture to microservices (Go + PostgreSQL).
- Built key frontend components in React.

Delegasi.co – Bandung, ID

Feb 2025 – May 2025

Software Engineer

- Developed backend APIs using Express.js and Baserow for a web-based HR management system.
- Implemented key features such as leave management and reimbursement, with role-based access for employees and HR.
- Contributed to frontend and system integration to ensure seamless functionality across modules.

PROJECTS & ORGANIZATIONAL EXPERIENCE

Artificial Intelligence Laboratory ITB – Bandung, ID

Jul 2024 – Jun 2026

Laboratory Assistant

- Assisted in three core courses: Artificial Intelligence, Machine Learning, and Computational Logic.
- Designed project specifications, created datasets, and organized practical sessions via Kaggle-style competitions.
- Conducted research and provided technical support in AI-related projects and course materials.

Kabinet KM ITB – Bandung, ID

Jul 2025 – Apr 2026

Deputy Minister of Information and Technology

- Co-led the ministry with the Minister, managing three directorates: Frontend, Backend, and UI/UX.
- Directly led backend and database development efforts across KM ITB platforms.
- Oversaw improvement of the KM ITB Website and Data Center, and initiated development of Wiki KM ITB, a new platform containing curated campus-related knowledge.

Google Developer on Campus ITB – Bandung, ID <i>AI Curriculum Coordinator</i> - Designed AI learning pathways centered on Google Gemini. - Created task specifications and evaluated projects. - Facilitated workshops and technical mentoring.	Sep 2024 – Nov 2025
Himpunan Mahasiswa Informatika (HMIF) ITB – Bandung, ID <i>Software Engineer</i> - Built and maintained backend services using Hono, Drizzle ORM, and PostgreSQL. - Developed frontend features using React and managed data-fetching/state via TanStack Query.	Jul 2024 – May 2025
Arkavidia 9.0 – Bandung, ID <i>Deputy Head of Datavidia</i> - Led 12 staff in organizing a national-scale data science competition. - Coordinated technical and logistical requirements, from problem design to judging. - Attracted ~500 participants (~300 teams) and partnered with academics and sponsors.	Nov 2024 – May 2025
Robotics Unit (KRSRI) ITB – Bandung, ID <i>Head of Robotic Software Engineer</i> - Led implementation of ROS2, algorithms, and computer vision in autonomous robots. - Translated research into working robotic systems for national competition.	Jan 2024 – Mar 2025

ACHIEVEMENTS

Anugerah Citra Ganesha Awardee – Bandung, ID Awarded the Ganesha Award, the highest institutional honor at ITB, in recognition of outstanding achievements, leadership, and contributions in academic excellence, technology development, and student organizations.	Nov 2025
1st Place – FindIT! Data Analyst Competition 2025 – Yogyakarta, ID Achieved 1st place among 227 competing teams nationwide, utilizing a weighted average ensemble for prediction and in-depth analysis of COPPA violation data. Held by DTETI Universitas Gadjah Mada.	May 2025
Finalist of National Data Mining Competition GEMASTIK XVII 2024 – Semarang, ID Ranked in the top 20 of a prestigious national inter-university data mining competition.	Sep 2024
Finalist of National Data Mining Competition GEMASTIK XVI 2023 – Malang, ID Ranked in the top 20 of a prestigious national inter-university data mining competition.	Sep 2023

CERTIFICATIONS

TOEFL Academic Scored 612.	Jan 2022
--------------------------------------	----------

LANGUAGES AND SKILLS

- Languages:** Bahasa Indonesia (Native), English (Professional Working Proficiency).
- Programming Languages:** Python, C, C++, Java, TypeScript, Go, PHP, Kotlin, Flutter (Dart).
- Web Development:** Next JS, React JS, Express JS, Hono, Gin, Drizzle ORM, Django, Laravel.
- AI Tools:** Claude Code, Antigravity, Testsprite, Openclaw, Hugging Face.
- AI/ML and Data Engineering:** Pandas, NumPy, TensorFlow, PyTorch, PostgreSQL, Spark, Kafka, Apache Airflow, Hadoop (Hive).
- Technical Expertise:** Data Analysis, Software Engineering, AI/ML Engineering.
- Passionate in:** Artificial Intelligence, Agentic AI, Data Science, Software Engineering, Business, and Finance.
