Rizqika Mulia Pratama

Greater Bandung, ID | rizqikamuliapratama@gmail.com | itsqika.com
+62 851-7171-0694 | linkedin.com/in/qika/ | github.com/rizqikapratamaa

Software Engineer and Computer Science graduate from Institut Teknologi Bandung, focused on backend and full-stack development. Ships production systems in Go (Gin), TypeScript, and Flutter — designing REST APIs, migrating monoliths to microservices on Go + PostgreSQL, and owning features end to end from schema to interface. Comfortable across the stack with React, Vue, and Next JS, and experienced in raising delivery quality through automated testing and CI/CD. Brings backend leadership experience and a practical AI/ML background to products that need intelligent features. Also experienced in building internal institutional systems that integrate with legacy databases, including an admissions platform at ITB.

PROFESSIONAL EXPERIENCE

Institut Teknologi Bandung (WRAM) – Bandung, ID Oct 2026 – Present
Forward Deployed Engineer
- Work directly with administrative staff of ITB's 12 faculties and schools, study programs, and the Directorate of Education: run discovery, uncover pain points and requirements, then deliver them as production software.
- Replaced the legacy admission system for international students and non-degree programs with a new admission module on ITB's integrated platform (Go, Vue 3/TypeScript, PostgreSQL, OpenAPI).
- Designed a stage-driven workflow around how staff actually work (bulk Excel nomination, check-in, NIM, visa/EPO, check-out) with stages derived in SQL from the legacy database.
- Implemented per-section optimistic concurrency (409 on stale edits) and an application-side audit trail for a shared legacy database.
- Authored ADRs and forward-only migrations; shipped 200+ frontend tests and DB-backed Go integration tests.
- Refactored section handlers into a shared framework, cutting the HTTP handler layer from 330 to 130 lines.

Ulinify – Bandung, ID Aug 2026 – Present
Chief Technology Officer
- Set technical direction and owned end-to-end delivery of Ulinify, a sustainability platform with personalized challenges and rewards.
- Operate the production stack: Express/Bun API, PostgreSQL, containerized services, and a Caddy TLS reverse proxy.
- Built secure, AI-enabled features: authenticated APIs, rate limiting, image uploads, Firebase notifications, and OpenAI photo verification.
- Accelerated delivery with agentic workflows (Claude Code, Codex, Hermes Agent) and n8n automations.

SpedGrow Pte Ltd – Singapore, SG Jun 2025 – Present
Software Engineer
- Built and shipped BuddINg Life, a financial-literacy platform across Flutter, Angular, React/Vite, and Strapi 5.
- Delivered auth, password recovery, subscriptions, contact flows, and user-scoped carts.
- Built AI-assisted challenge creation and permission-aware dashboards and notifications.
- Migrated tooling to Bun and Vite, added test coverage, and set up CI/CD with staged deployments.

Magna Partners – Jakarta, ID Nov 2024 – Aug 2025
Software Engineer
- Developed REST APIs in Go (Gin) and migrated the architecture to microservices on Go + PostgreSQL.
- Built key React frontend components.

Delegasi.co – Bandung, ID Feb 2025 – May 2025
Software Engineer
- Built backend APIs with Express.js and Baserow for an HR management system, including leave and reimbursement with role-based access.
- Contributed to frontend work and module integration.

PT. Oviatech Prima Integra – Bandung, ID Jun 2025 – Oct 2025
Data Engineer
- Built Python ETL pipelines over Apache Hive datamarts using SQLAlchemy.
- Delivered standardized datasets through FastAPI internal APIs.

PROJECTS & ORGANIZATIONAL EXPERIENCE

Kabinet KM ITB – Bandung, ID Jul 2025 – Apr 2026
Deputy Minister of Information and Technology
- Co-led the ministry with the Minister, managing three directorates: Frontend, Backend, and UI/UX.
- Directly led backend and database development efforts across KM ITB platforms.
- Oversaw improvement of the KM ITB Website and Data Center, and initiated development of Wiki KM ITB, a new platform containing curated campus-related knowledge.

Himpunan Mahasiswa Informatika (HMIF) ITB – Bandung, ID Jul 2024 – May 2025

Software Engineer

- Built and maintained backend services using Hono, Drizzle ORM, and PostgreSQL.
- Developed frontend features using React and managed data-fetching/state via TanStack Query.

Robotics Unit (KRSRI) ITB – Bandung, ID Jan 2024 – Mar 2025

Head of Robotic Software Engineer

- Led implementation of ROS2, algorithms, and computer vision in autonomous robots.
- Translated research into working robotic systems for national competition.

Artificial Intelligence Laboratory ITB – Bandung, ID Jul 2024 – Jun 2026

Laboratory Assistant

- Assisted in three core courses: Artificial Intelligence, Machine Learning, and Computational Logic.

LANGUAGES AND SKILLS

- **Programming Languages:** Go, TypeScript, Python, Java, C, C++, PHP, Kotlin, Flutter (Dart).
- **Backend:** Gin, GORM, sqlc, Hono, Express JS, Django, Laravel, FastAPI, Drizzle ORM, REST APIs, OpenAPI, microservices, Redis, OIDC.
- **Frontend:** Vue 3, Vite, TanStack Query, Vitest, Next JS, React JS, Flutter.
- **Databases and Infrastructure:** PostgreSQL, Apache Hive, Kafka, Docker Compose, GitLab CI, CI/CD.
- **Agentic Engineering & Automation:** Claude Code, Codex, Hermes Agent, n8n, Antigravity, Testsprite, OpenClaw, Hugging Face.
- **Languages:** Bahasa Indonesia (Native), English (Professional Working Proficiency).

EDUCATION

Institut Teknologi Bandung – Bandung, ID Aug 2022 – Jul 2026

Bachelor of Engineering, Computer Science

- **Thesis:** Development of Process-Supervised Multi-Agent Retrieval-Augmented Generation for Constraint Satisfaction in Tourism Itinerary Recommendation Systems: A Case Study in the Bandung Region.
- GPA: 3.39 of 4.00.

ACHIEVEMENTS

Anugerah Citra Ganesha Awardee – Bandung, ID Nov 2025

Highest institutional honor at ITB, recognizing academic excellence, technology development, and contributions to student organizations.

1st Place – FindIT! Data Analyst Competition 2025 – Yogyakarta, ID May 2025

1st place among 227 teams nationwide. Held by DTETI Universitas Gadjah Mada.

Finalist – National Data Mining Competition GEMASTIK XVII 2024 & XVI 2023 Sep 2024, Sep 2023

Top 20 nationally in both editions of a prestigious inter-university competition.
