AI/ML Engineer and Computer Science graduate from Institut Teknologi Bandung, working at the intersection of applied research and production systems. Thesis research developed process-supervised multi-agent Retrieval-Augmented Generation for constraint satisfaction in recommendation. Professionally, has shipped an LLM-driven recommendation system and the MLOps pipelines that train, deploy, and monitor it. Former teaching assistant for Artificial Intelligence, Machine Learning, and Computational Logic, designer of Gemini-centred AI curricula, and a national finalist in data mining competitions.

EDUCATION

Institut Teknologi Bandung – Bandung, ID Aug 2022 – Jul 2026
Bachelor of Engineering, Computer Science
- **Thesis:** Development of Process-Supervised Multi-Agent Retrieval-Augmented Generation for Constraint Satisfaction in Tourism Itinerary Recommendation Systems: A Case Study in the Bandung Region — combining multi-agent orchestration, retrieval grounding, and process-level supervision to enforce hard constraints on generated itineraries.
- GPA: 3.39 of 4.00.

PROJECTS & RESEARCH EXPERIENCE

Artificial Intelligence Laboratory ITB – Bandung, ID Jul 2024 – Jun 2026
Laboratory Assistant
- Assisted in three core courses: Artificial Intelligence, Machine Learning, and Computational Logic.
- Designed project specifications, created datasets, and organized practical sessions via Kaggle-style competitions.
- Conducted research and provided technical support in AI-related projects and course materials.

Google Developer on Campus ITB – Bandung, ID Sep 2024 – Nov 2025
AI Curriculum Coordinator
- Designed AI learning pathways centered on Google Gemini.
- Created task specifications and evaluated projects.
- Facilitated workshops and technical mentoring.

Robotics Unit (KRSRI) ITB – Bandung, ID Jan 2024 – Mar 2025
Head of Robotic Software Engineer
- Led implementation of ROS2, algorithms, and computer vision in autonomous robots.
- Translated research into working robotic systems for national competition.

Arkavidia 9.0 – Bandung, ID Nov 2024 – May 2025
Deputy Head of Datavidia
- Led 12 staff in organizing a national-scale data science competition.
- Coordinated technical and logistical requirements, from problem design to judging.

PROFESSIONAL EXPERIENCE

Ulinify – Bandung, ID Aug 2026 – Present
Chief Technology Officer
- Set technical direction and owned end-to-end delivery of Ulinify, a sustainability platform with personalized challenges and rewards.
- Operate the production stack: Express/Bun API, PostgreSQL, containerized services, and a Caddy TLS reverse proxy.
- Built secure, AI-enabled features: authenticated APIs, rate limiting, image uploads, Firebase notifications, and OpenAI photo verification.
- Accelerated delivery with agentic workflows (Claude Code, Codex, Hermes Agent) and n8n automations.

SpedGrow Pte Ltd – Singapore, SG Jun 2025 – Present
Software Engineer
- Built and shipped BuddINg Life, a financial-literacy platform across Flutter, Angular, React/Vite, and Strapi 5.
- Built AI-assisted challenge creation and permission-aware dashboards and notifications.

PT. Oviatech Prima Integra – Bandung, ID Jun 2025 – Oct 2025
Data Engineer
- Built Python ETL pipelines over Apache Hive datamarts using SQLAlchemy.
- Delivered standardized datasets through FastAPI internal APIs.
- Registered pipelines in the data catalog for consistency, traceability, and governance.

Magna Partners – Jakarta, ID Nov 2024 – Aug 2025
Software Engineer
- Developed REST APIs in Go (Gin) and migrated the architecture to microservices on Go + PostgreSQL.

ACHIEVEMENTS

Anugerah Citra Ganesha Awardee – Bandung, ID Nov 2025
Awarded the Ganesha Award, the highest institutional honor at ITB, in recognition of outstanding achievements, leadership, and contributions in academic excellence, technology development, and student organizations.

1st Place – FindIT! Data Analyst Competition 2025 – Yogyakarta, ID May 2025
Achieved 1st place among 227 competing teams nationwide, utilizing a weighted average ensemble for prediction and in-depth analysis of COPPA violation data. Held by DTETI Universitas Gadjah Mada.

Finalist of National Data Mining Competition GEMASTIK XVII 2024 – Semarang, ID Sep 2024
Ranked in the top 20 of a prestigious national inter-university data mining competition.

Finalist of National Data Mining Competition GEMASTIK XVI 2023 – Malang, ID Sep 2023
Ranked in the top 20 of a prestigious national inter-university data mining competition.

LANGUAGES AND SKILLS

- **AI/ML:** PyTorch, TensorFlow, Hugging Face, LLMs, Retrieval-Augmented Generation, multi-agent systems, recommendation systems, computer vision, MLOps.
- **Data:** Pandas, NumPy, Spark, Kafka, Apache Airflow, Hadoop (Hive), PostgreSQL.
- **Programming Languages:** Python, Go, TypeScript, Java, C, C++, Kotlin, Flutter (Dart).
- **Engineering:** FastAPI, Gin, Next JS, React JS, Django, Laravel, Docker, CI/CD, ROS2.
- **Agentic Engineering & Automation:** Claude Code, Codex, Hermes Agent, n8n, Antigravity, Testsprite, OpenClaw.
- **Languages:** Bahasa Indonesia (Native), English (Professional Working Proficiency).

CERTIFICATIONS

TOEFL Academic Jan 2022
Scored 612.
